

Please leave Indiana's Telephone Privacy list as it is now! Do not adopt a national standard for telephone privacy lists. Let each state have it's own laws. I have been on the Indiana do not call list for over 1 year and it is working for me. I have only received 4 calls. 3 were about voting for candidates in the recent election. The other call was a research company taking a survey, not selling. Before I got on the list I had phone calls from salesmen every night I got home from work and all day on Saturdays. Let Indiana keep their own telephone privacy law and do not adopt one national law!
